

Transport

Heartbeat provides a transport service to those with heart problems. This service consists of providing transport to hospital of Heartbeat members who have no practical means of personal transport (Hospital transport, Friends, Relatives, Public transport).

A secondary but just as important function is to help Heartbeat members who having no personal transport to attend Heartbeat meetings and functions.

To enable Heartbeat to assist in providing this service a list of members, who have in the past been kind enough to volunteer their services to drive members around has been made. If you think you could help provide this service please fill out the form below.

To reduce our involvement in obtaining lifts to meetings and functions, We wish to give the name and phone numbers of those willing to give lifts to those members requiring them. This will enable contact to be made directly. If you are willing to have your phone number given out for this purpose, please indicate on the appropriate section of the form.

If you require help with your transport needs please contact: -

Keith Cockrill - Phone - 01473 271958.
